

Capesize Average 5TC						<p>There was a reasonable about of West Australia to China C5 trading today as most of the mining majors were looking for tonnage from early on. Further to the west it was a quieter usual Monday affair. India is the latest to be heard shutting down due to Covid-19. Force-majeure is being declared at several ports while cargoes are being heard to temporise.</p>

Various sources remarked on the distinct lack of north Atlantic enquiry with rates likely to fall without a significant fresh demand, likewise a quiet day trading from east coast south America with very few visible bids today a watch and wait approach being adopted by many.</p>
