

Cleartech Portal 2020.5 Upgrade

As part of an upgrade, an update for the Cleartech Portal to Version 2020.5 will be released by **14 December 2020**. No downtime is expected.

1. Risk Manager: Time Range for Risk Limits

Risk Limits may now be set for a defined Time Range (UTC).

2. Trade Registration API

Trade Registration via API is now available.

3. Options Pricer Update

The Options Pricer Function has been updated.

4. Position Tracker Update

Position Tracker now allows Trading Firms to set up warning threshold alert emails.

If you encounter any issues, you can reach EEX Asia Market Operations at **+65 6206 9828** or via email at marketops@eexasia.com.

Refreshing your page (Ctrl+F5) or logging out and back in prior to use is recommended. Thank you for your continued support.
